An Important Offer.

Having recently established myself in Toledo, and knowing well my ability to cure chronic diseases of all kinds that are curable I propose to make the following proposition to readers of this paper, in order to make it to their advantage to visit my office: Any person that is afflicted with discuse who lives within a radius of fifty miles of Toledo, who wishes to visit me for treatment and can come on the railroad, will have his fare paid by me both ways. This is good only to Jannary 1st, 1887. Those who don't wish to be treated will have nothing to pay for consultation, but will have to pay their own fare My charges vary of course, according to the requirements of the case, but in no case will they exceed that of their skilled physicians, but will be less if any thing. It is safe to say that Napoleon merchants have sold at least 20 per cent. more goods during the months of October, November and December than they have during those months for five years past. And this, too, under an administration which the Republicans told the people would ruin business and government don't fest simply upon the people for the people.

A large shoe factory with a capital of \$40,-900 or \$50,000, and which gives employment to 100 people with a weekly pay roll of \$1200, is going begging at Chillicothe. All they ask of the citizens of that city is to give them a building as a bonus, providing it binds itself to employ 100 hands, twelve months in the year for ten years, except when unavoidable delayed with their work. Now, if Napoleon had a board of trade in operation, who knows but that we might gobble in this factory.

Napoleon has five dry goods stores, four hardware stores, three drug stores, six boot and shoe stores, four clothing stores, three merchant tailoring concers, four millinery stores, two bakerys, thirteen grocery stores, five meat shops, two carrige and wagon fac tories, four blacksmith shops, hoop factory, two large grist mills, two planing mills, an extensive brewery and bottling works, one saw mill, oar factory, stave factory, two tile yards, one brick kiln, two coal yards, one grain elevator, woolen mills, two hotels and hundreds of other smaller industries. On the whole Napoleon is not a bad town to locate and live in, and as it is one of the best built towns in this part of the State it is a desirable point for those seeking investments.

That the world is never at a standstill is proved by a recent decision of the Treasury Department at Washington, permitting the Perfection Tea Can to pass the Custom House free of duty. It recognized the fact that the Perfection Tea Can consisted mere ly of machinery, and was only a beneficial substitute for the old-fashioned and dangerous lead-lined packages. H. E. Cary has taken advantage of this decision to import a high-grade and choice nerve-stimulating brand of uncolored Japan Tes, called "Our Favorite Tea," only in Perfection Tea Cana, thus insuring the perfect preservation of all its finer and more subtle volatile properties.

LARD

There are some articles of domestic economy in which we are all interested alike, and some concern a few only. For instance, we all use in our families, sugar, salt, flour, wood, coal oil, etc., some eat celery, some not, some use coffee and others won't touch it, but if there is one thing which we use Winter and Summer alike, in season and out of season, it is Lard; and yet there is nothing we use that most people are so careless in buying "It looks white ' that makes it all right, but look your honest grocer in the eye and ask him, "is this kittle rendered?" and if he can answer without a quaver of voice, "yes," and you can believe him, you are pretty sure of getting a good article, but if he says "no, but it is just, as good," don't believe him. This steam rendered, refined, gummy Miss Mamie McCann is visiting her sister, stuff which some of our groceries are selling is'nt fit to grease wagons. If any dealer will keep this kind of cheap Mr. C. M. Williams, of Bellevue, O., will lard. let him also keep some of the best and give his customers Miss Lallah Hague leaves Saturday for a choice. Indeed he would Cleveland to visit her friend, Miss Gleason, clear his conscience by keeping the three grades (that are for ston, and W. H. Hubbard, of Defiance, were sale at any city packing house) and sell them at different prices as he does sugar. You go into a grocery and ask for a dol-Mr. Harvey Emery left last Saturday for lars worth of sugar; "What kind?" is his home in South Toledo, where he will rec- the first question of the polite clerk. After he has done it up you ask for Mr. Thomas Rieger, formerly of this place, the same of lard; there is no question in reply now, it is all dished from the same barrel or can. It is the best Simon Pure Lard this is all right, but if otherwise, it is all wrong. "How will you tell?" First buy of a responsible dealer who plays you no tricks in anything you get of him, next insist on his keeping Cowifricks (or some other) kettle rendered lard on hand, then watch the article your self. Gummy, sticky land is never of first quality. It is steam rendered from a whole hog (died a natural death perhaps) or from the head and other offal. We have no steam fixtures, render all our lard in kettles, and buy all our hogs dressed, so we have no kit lard. and more over when I tell a customer he is getting leaf lard, I hope I have honor enough or policy enough to give him what he buys. Truly yours.
